Request Information
Request Description
Users should be able to create posts with message/attachment contents to the system.
Justification
Posts need to be made into the system so the users can share their stories - with an attachment feature to allow sharing of details that can't be made easy with words.
Effect if declined (Risk if the project request is declined)
The users won't be able to upload posts/contents - which is supposed to be the main functionality of it. Without this feature the system will not be able to serve.
